Abstract:

This draft environmental impact statement (DEIS) documents the analysis of six alternatives (including a “no action” alternative) that was developed for the Rosemont Copper Project analysis. Alternative 4 – Barrel Alternative is the U.S. Forest Service preferred alternative. The Notice of Intent to prepare this document was published in the Federal Register on March 13, 2008. The public comment period was subsequently extended with a Notice of Intent that was published in the Federal Register on April 29, 2008. The Rosemont Copper Project proposes to mine copper and associated minerals on the Nogales Ranger District of the Coronado National Forest. The proposed activities include an amendment to the 1986 “Coronado National Forest Land and Resource Management Plan.”

A final environmental impact statement (FEIS) and a record of decision may be released following public review and comment on this DEIS. Comments received in response to this solicitation, including names and addresses of those who comment, will be considered part of the public record on this proposed action and will be available for public inspection. Comments submitted anonymously will be accepted and considered; however, those who submit anonymous comments will not have standing to appeal the subsequent decision under 36 Code of Federal Regulations Part 215.

Reviewers should provide the Forest Service with their comments during the review period of the DEIS. This will enable the Forest Service to analyze and respond to the comments at one time and to use information acquired in the preparation of the final environmental impact statement, thus avoiding undue delay in the decision making process. Reviewers have an obligation to structure their

participation in the National Environmental Policy Act process so that it is meaningful and alerts the agency to the reviewers' position and contentions (*Vermont Yankee Nuclear Power Corp. v. NRDC*, 435 U.S. 519, 553 (1978)). Environmental objections that could have been raised at the draft stage may be waived if not raised until after completion of the FEIS (*City of Angoon v. Hodel* (9th Circuit, 1986) and *Wisconsin Heritages, Inc. v. Harris*, 490 F. Supp. 1334, 1338 (E.D. Wis. 1980)). Comments on the DEIS should be specific and should address the adequacy of the statement and the merits of the alternatives discussed (40 Code of Federal Regulations 1503.3).
