**Subject:** Santa Rita MA-April CLF Trip Briefing

To All,

Please excuse the tardiness of this email but I wanted to brief everyone on our April CLF surveys in the Santa Rita Mountain Management Area. From April 9-11, Debbie Sebesta, Jeff Servoss, Eric Wallace, David Hall and I surveyed 13 sites in the MA. The purpose of the trip was to monitor extant populations, assess water levels at Greaterville and Granite Tank, and identify new translocation sites to release salvaged frogs if needed. On the night of April 8, I surveyed Greaterville Tank (dry) and detected 6 adult frogs semi burrowed in the mud or hiding in cattle depressions. All 6 frogs were collected the morning of the 9<sup>th</sup> and translocated to Granite Mountain Tank. As most of you know, there are plans to reconstruct Greaterville Tank this June to increase its water permanency. I believe the dates are June 13 or 14 (Debbie, can you please confirm).

If you would like copies of datasheets or photos from the trip, please let me know and thanks to those that were able to participate.

The following sites were surveyed (we detected RACH at 8 sites (indicated by **bold text**) and breeding at 3 of the 8 sites (indicated by underline):

**Unnamed Tank (Greaterville Tank)**

**Granite Mountain Tank**

## West Tank

Box Canyon

Florida Canyon

## Gardner Canyon

**Unnamed Tank (Bowmen Tank)**

## Louisiana Gulch

**Unnamed Tank (South of Enzenberg Canyon)**

Sweetwater Dam

Unnamed Tank (Lazy Crazy P)

Unnamed Tank (Hog Canyon)

**(Unnamed Well) Ophir Gulch Well)**

Please let me know if you have any questions. Thanks.

**Subject:** Chiricahua Leopard Frog meeting - Recovery Unit 2

Hey Everybody!

It is time to start scheduling this year's **Local Recovery Group** meeting for **Chiricahua leopard frog recovery** in recovery Unit 2 . Please follow the link to this doodle survey by **Friday February 25<sup>th</sup>** if you would like to participate in this meeting. Please forward to anyone I may have missed. Thanks! Look forward to seeing everyone!

**Participation link:** <http://www.doodle.com/wnbmrd7g55yyeqhe>

*For Wildlife Managers* – Most of Recovery Unit 2 falls within 34 A/B and 35 A/B. Because 34 A/B is vacant, I have included WM's in surrounding units that might be working in these areas in addition to another unit. I have attached a map that displays the boundaries of Recovery Unit 2 (highlighted in teal) for those of you that are unfamiliar.

**Tentative details:**

**Location – Tucson Game and Fish Office**

**Time- 1000-1600**

**Maybe I will even bring bagels....**
