Population > Population Projections

Population Projections

VISION

To maintain a sound accurate population growth model consistent with sound demograph projection principles for counties and jurisdictions within Arizona and the state as a whole

MISSION

To provide reliable unbiased projections of future population growth and a single state repository for current population references enabling sound planning and decision making government and private entities.

Data Tables

2012-2050 STATE AND COUNTY POPULATION PROJECTIONS

In addition to the baseline projections (the medium series), a low series and a high series also produced using alternative assumptions.

Summary Tables

Projected total population for each year between 2012 and 2050 for the state, each count Phoenix Metro Area, the Tucson Metro Area, and Balance of State:

- Low Series [XLSX](#)
- **Medium Series** [XLSX](#)
- High Series [XLSX](#)

Detail Tables

Projected total population, components of population change, population by sex and age group, population by sex and single year of age for age group 19 and younger, population race and Hispanic origin:

Geography	Low Series	Medium Series	High Series
Arizona	XLSX	XLSX	XLSX
Apache	XLSX	XLSX	XLSX
Cochise	XLSX	XLSX	XLSX

2012-2050 Sub-county Projections will be released by September 2013.

U.S. Census Bureau's Economic Census

The Economic Census is conducted by the U.S. Census Bureau. It is the U.S. Government's official five-year measure of American business and the economy.

More than 4 million employer businesses will receive Economic Census forms between October and December, 2012.
