Here it is, when I wrote this, it was the personal communication. Or you can save this email...I have heard that "This species is reputedly relatively common in Box Canyon (L. Jones, pers. comm. 8 May 2013)

Importance: High

Hi Larry,

There is a sentence in the EIS that says, "This species is reputedly relatively common in Box Canyon (L. Jones, pers. comm. 7 March 2013)."

I can't find an email from you that says this on this date. Could you please send me an email restating this if it is true so I can officially add this reference to the record?

Thanks,

Angela M.D. Barclay, M.S.
