Fuel Tax Rates in Arizona

The Arizona tax on gasoline (motor vehicle fuel) is \$.18 per gallon.

Use fuel (diesel) is taxed at two rates in Arizona:

If the use fuel is used in the propulsion of a use class motor vehicle on a highway in this state, the tax rate is \$.26 for each gallon.

A "use class motor vehicle" means a motor vehicle that uses use fuel on a highway in this state and that is a road tractor, truck tractor, truck or passenger carrying vehicle having a declared gross vehicle weight of more than twenty-six thousand pounds or having more than two axles.

If the use fuel is used in the propulsion of a light class motor vehicle (such as a pickup truck), or an exempt vehicle (certain school buses, government and non-profit vehicles – see [28-5432.C](#)) on a highway in this state, the use fuel is taxed at the same rate per gallon as the motor vehicle fuel tax (\$.18 per gallon). (See [28-5601](#), [5605](#), [5606](#))
