JA permits annually on USFS land in 34A	700	700	700	700	700
Annual hunter-days for WT on USFS land in 34A	12610	12610	12610	12610	12610
Annual hunter-days for JA on USFS land in 34A	2863	2863	2863	2863	2863
Annual hunter-days for MQ on USFS land in 34A	3000	3000	3000	3000	3000
WTD Permits lost/year (based on % of USFS land lost)	81	80	74	93	95
JA Permits lost/year (based on % of USFS land lost)	29	29	27	34	34
Annual Hunter-days Lost (WT) (based on % of USFS land lost)	530	517	479	605	618
Annual Hunter-days Lost (JA) (based on % of USFS land lost)	120	117	109	137	140
Annual Hunter-days Lost (MQ) (based on % of USFS land lost)	126	123	114	144	147
WT permits lost in 20 years	1630	1591	1474	1862	1901
JA permtis lost in 20 years	588	574	532	672	686
WT hunter-days lost in 20 yrs	10592	10340	9584	12106	12358
JA hunter-days lost in 20 yrs	2405	2348	2176	2748	2806
MQ hunter-days lost in 20 days	2520	2460	2280	2880	2940

These losses can be converted to \$ by multiplying the cost of the respective tags but that is a fraction of the financial effect to the local economies
